

CALL FOR EXPRESSIONS OF INTEREST

2025 *econext* Conference Research Posters

econext is calling for expressions of interest from graduate students and postdocs conducting relevant research that would be of interest to attendees of *econext*'s 2025 Conference. The event is scheduled to take place on Thursday October 9, 2025 @ the Delta Hotel and Conference Centre in St. John's, NL. Participants will present their projects via posters; their research will be presented during breaks in the conference agenda from 8:30 AM – 4:30 PM. Participants will be given poster board space of 43" x 45".

The research posters must be related to the green economy or clean growth. For example, research posters could focus on ideas and concepts for increasing energy efficiency, reducing waste, reducing greenhouse gas (GHG) emissions, developing clean tech, or creating new sources of clean energy – any of which results in improved environmental outcomes. Successful applicants will receive support from Memorial University's Research Innovation Office towards the production of printed materials, and education around IP considerations in developing their presentation.

INSTRUCTIONS FOR SUBMISSIONS

For your expression of interest, please include following:

- Title of research or project;
- 250-word summary of research;
- Presenter's name, department, program of study, and brief biography

The deadline for submissions is 4:30 PM on Monday September 15, 2025. Expressions of interest must be submitted by e-mail to Colin Heffernan, Manager of Industry and Community Engagement with *econext* – heffernan@econext.ca. Submissions will be reviewed based on relevance to the green economy and the significance of the content to the clean growth sectors in Newfoundland and Labrador.
